## Introduction

Ung i Skåne is addressed to young people between the ages of 13-25 and the aim of the project is to increase participation and involvement of young people in the society. Young people in Skåne can apply for up to 25 000 SEK in support of carrying out a project. The young people plan and run their own projects and, if necessary, with support from a youth coach. The projects must be by and for young people. Ung i Skåne is based on collaboration between three youth projects in different leader areas in Skåne.

[Ung i MittSkåne](#) - Eslöv, Hörby & Höörs municipality

[Unga Ess](#) - Bromölla, Kristianstads, Osby & Östra Göinge municipality

[La Source](#) - Simrishamns, Sjöbo, Tomelilla & Ystads municipality

The projects that collaborate in Ung i Skåne are financed by two funds: the European Agricultural Fund for Rural Development and the European Regional Development Fund with a total of 1 461 000 SEK available for young people's projects. Since the spring of 2018, 50 projects have been completed. These are presented in more detail in this status report, divided into the different Leader areas.

# Y-LAG

## About Y-LAG

All three youth projects in Ung i Skåne are structured in a similar way with sub-projects where young people in simpler forms can apply for financial support to create and arrange events and activities for themselves and other young people. La Source has a youth board, Y-LAG\*, linked to the project. In Ung i Mittskåne and Unga Ess there are plans to start youth boards in the spring of 2021.

Working with Y-LAG is a proven model that has been used successfully in several leader areas in the previous program period. In La Source, the young people in Y-LAG have the role of decision-makers where they can be involved, influence and direct the project. Y-LAG's main task is to decide which sub-projects are to be supported financially by La Source. The young people in Y-LAG act as ambassadors for Leader and their mission also includes spreading information to other young people about how to apply for money at La Source. Y-LAG consists of 8 young people aged 14-21 with representation from all of the Leader area's four municipalities. Below, one of the members of Y-LAG talks about what it is like to be part of the youth board.

\*LAG means Local Action Group which is the board of a Leader area.

La Source Y-LAG. Elis Andersson, Tilde Andersson, Louise Bennison, William Thorén, Andreas Thell (youth coach). Amina Ekstrand, Alva Törnqvist, Elsa Ottosson, Natalie Anzelius.

**Hello there!** With Amina Ekstrand, 15 years.

### Why did you choose to apply to Y-LAG?

It seemed like a more serious and fun way to be able to express your ideas and thoughts. When you are still quite creative, it sounded fun to have a place where your ideas can be developed and built on by other talented young people.

### What is the best thing about being part of Y-LAG?

To meet young people with different backgrounds, thoughts and interests but with the same goal. We are all extremely different in Y-LAG but we help each other, build on each other's ideas and come up with solutions. Then it's fantastic fun to see when your ideas go to fulfillment and not just stay as an idea.

### What is it like to be young and be involved and able to influence?

It is extremely interesting and instructive. I myself have always had the impression that I have to sit around and wait until I am an adult to be able to influence. But now you have realized that it is not very difficult to influence, you just have to see your possibilities and find people who are willing to listen.

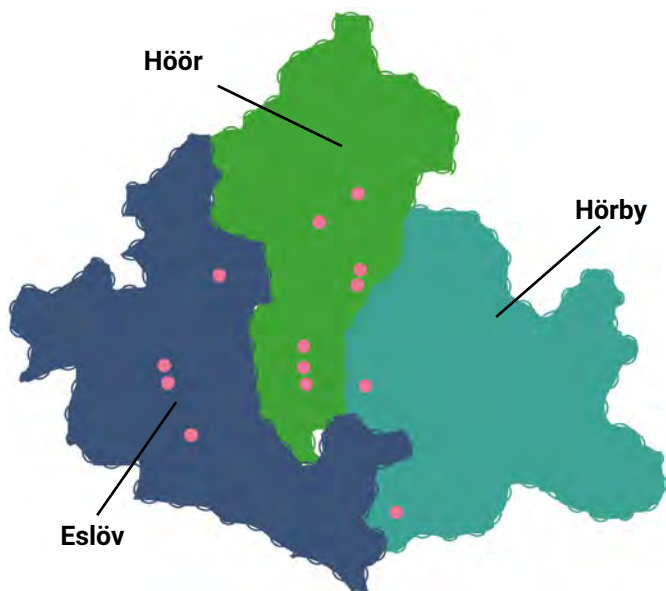

# Ung i MittSkåne

Ung i MittSkåne turns to young people between the ages of 13-25 and the aim of the project is to increase participation and commitment in the democracy process in rural areas. Through Ung i MittSkåne, young people in the municipalities of Eslöv, Höör and Hörby can apply for up to 20 000 SEK in support of realizing a project. The young people plan and run their own projects with support from a youth coach. The projects must be by and for young people.

Ung i MittSkåne is financed by the European Agricultural Fund for Rural Development and European regional development fund with a total budget of 311 000 SEK. During the project period, August 2018 to June 2020, 13 projects were completed. These are presented in more detail in the section projects in MittSkåne.

The map below shows the distribution of projects between MittSkåne's municipalities.

**Hello there!** With Johan Hatje, 24 years

**Why is it important to include young people in rural areas?**

In order for there to be a balance. Including young people in rural areas creates new developed societies where different perspectives meet that are highlighted to create new collaborations and projects.

**What have you learned through your project?**

What I mainly learned through my project is collaboration with other actors in society who also want to change and create conditions for listening to young people's commitment and drive, to lift young people's ideas and create platforms for us to meet and develop. Furthermore, I have also learned how important it is to have a good platform for marketing. It does not have to cost that much money if you use what you have around you and work with it

**What has been the most fun about running a project?**

The whole process, to see a seed germinate into a big nice sunflower that along the way has to face successes and setbacks, but which especially at the end of the project gets to see the finished result, and best of all, that my project was so successful during such a limited time as I had. A lot of people came and it was thanks to different components that made it a success.

# Projects in MittSkåne

## Livemusik på stan

Where is the cultural event for young people in Eslöv where young musicians can get a stage for a new audience? La Source is addressed to young people between the ages of 13-25 and the aim of the project is to make young people's initiatives visible and support their opportunities to influence their everyday lives and leisure in the countryside. Through La Source, young people in the municipalities of Sjöbo, Tomelilla, Simrishamn and Ystad can apply for up to 25 000 SEK in support of realizing a project idea that they dream of implementing.

The overall goal of the project is to take advantage of young people's commitment and let them create their own sub-projects so that they feel involved in the development of the place where they live. Young people plan and run their own projects with support from a youth coach. The projects must be by and for young people.

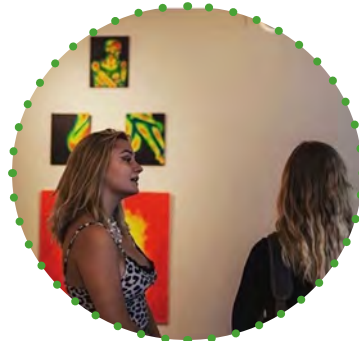

La Source is financed by the rural fund for agricultural development with a total of 400 000 SEK. During the project period, October 2019 to January 2022, so far, 11 projects have been completed.

There is a youth board for the project (Y-LAG) connected with young people between 13-25 years from all four municipalities that have the task of inspiring and supporting other young people who want to implement their project ideas. The youth board also makes decisions about which sub-projects to be granted money.

The map below shows the distribution of projects in each municipality.

**Hello there!** With Melanie Hall, 18 years

**Why is it important to include young people in rural areas?**

I think it is important to let the young people be heard, to let the young people express themselves and to get support and encouragement from associations that believe in us! Getting that kind of support when it comes to your ideas makes you more encouraged since you obviously think it's more fun to do what you do when you get support.

**What have you learned from your project?**

I have learned to look behind the project, it is not just about applying for money and doing an art exhibition, it takes a lot of time and focus to do it right. I have learned that such things take time, more time than you might think but it is so worth it!

**What has been the most fun about running a project?**

The most fun was to see your own idea come true! It was so cool to create something for young people in Ystad. It was not just an exhibition but a hangout for young people, which I thought was really cool.

## Bio8

Bio8 was started as an association for young people interested in film in southeastern Skåne. On a Friday night a month, the young people take over the traditional cinema Scala in Ystad and show films that the young people in the association themselves are involved in choosing and voting for. When does the movie start? At 8pm of course!

## Friidrottsskola

The athletics school is a given highlight of the summer holidays for many young people. When the municipality withdrew their financial support to summer holiday activities, a group of active young people in the athletics club took matters into their own hands in order to be able to arrange a free athletics school. In two rounds, 40 children at a time are given the opportunity to test most of the many different disciplines of athletics in playful ways. Under the guidance of the club's active young people, training and activities are planned and carried out with a focus on discovering the charm of the versatility of athletics.

## JEANNE

The JEANNE project wants to strike a blow for young local art and realize the dream of setting up their own art exhibition at Ystad Art Museum. The art is created by the project group themselves and reflects the development from being an insecure teenage girl to growing up and becoming an independent young woman. The exhibition begins with a vernissage and during various workshops, other young people also get the opportunity to create and exhibit their own art. By drawing attention to the interest in art among young people, the project group hopes to encourage other young people to dare to express themselves and follow their goals.

## Kreativt entreprenörskap

There are many young artists in Österlen, but there is often a lack of knowledge about how to take your interest further from being a beginner to becoming a professional artist and being able to earn a living in a creative profession. The Creative Entrepreneurship project offers a specially designed education with the goal of providing participants with tools and contacts in the industry so that more people can work in the creative professions.

## Teaterfestival för barn och ungdomar

2020 is a very special cultural year and to keep the culture in Ystad alive, the Summer Theater in Ystad will put together a theater festival for children and young people. As audiences are not allowed, the project will change the way of thinking and the performances will therefore be filmed and published in a digital format. The aim of the festival is to create greater interest in cultural activities for children and young people in Ystad.

## Sommargolf Ystad GK

Ystad Golf Club has a high average age and a strong need to attract more young golfers. Some of the club's established junior golfers want to change the age structure of the club and hold open try-out golf sessions throughout the summer for those who want to try golf. The summer golf ends with an excursion and training camp over a weekend to a nearby golf club to further inspire those who have recently discovered the sport of golf.

There have been many more young people in the club now compared to last year. However, it is a bit early to determine with certainty as golf is not played during the winter. Only in the spring can you be completely sure of the effect, but golf has clearly gained momentum among young people in the immediate area thanks to the project.

### Unga influencers på landsbygden

The project Young influencers on the countryside gives young people between the ages of 16 and 25 the opportunity to get a summer job as a local influencer and share their everyday life as young people in rural areas on social media. The long-term purpose of the project is to promote young people's opportunities for involvement and participation in rural areas and to highlight the countryside as an attractive place to live for young people. The project is a collaboration between La Source and Ung i Mittskåne.

### Ungdoms-Hänget i Köpingsbro

More and more young people are sitting at home behind a screen such as a TV, computer or mobile phone. Crime and violence decrease with age and increase sharply. For many young people, bullying and exclusion are an everyday occurrence. The project group wants to change this by creating a community and a "Hang" in Köpingsbro for young people from 13 years and up where everyone regardless of background is welcome. A meeting place where young people can meet in the evenings and weekends under the guidance of young adults and adult leaders in order to provide greater safety in this way.

## HARRY POTTER DAGAR

### Uppstart för Harry Potter veckan

The February holiday week in Ystad has in recent years become synonymous with the Harry Potter theme and days filled with experiences in the magical world for young people between 11-16 years. A group of young people within KulturCrew Ystad wanted to take the theme days a step further and inaugurate the theme week in a magnificent way by arranging an open screening of the first Harry Potter film at the Scala cinema.

### ÖMT's A-traktorbygge

In Tomelilla, vehicles and engines are a great interest among many young people. Some of the young people have joined their forces and started Österlens Motor- och Teknikförening to be able to continue to share their common interest in motoring and engines even in their free time. The plan is to keep the workshop in Kastanjeskolan technical garage open for young people in the afternoons and evenings with supervisors on site to be able to repair and service their vehicles even outside school hours. The project also includes the conversion of a passenger car into an A-tractor where the participants gain knowledge in how to plan and rebuild an A-tractor from scratch.

# Compilation of statistics

Below is a summary of all completed and ongoing projects.

## 10 tips for successful inclusion of young people:

1. Let young people be a part of the decisions that affect them, preferably as active decision-makers in, for example, boards or youth councils
2. Use young people as ambassadors - reach young people through other young people
3. Simplify the administration around application, accounting and finances - it should be easy to do things right!
4. Highlight concrete examples to inspire and kick-start the creativity of young people
5. Identify and utilize existing networks for young people to reach the target group
6. Collaborate with relevant actors who have an established contact with young people e.g. leisure leaders, association leaders or teachers
7. Reach young people in the young people's arena and in the channels and forums the young people are at
8. Create a strategy and plan for social media - and follow the plan!
9. Encourage young people to commit to democracy and social issues by inviting young people into various networks
10. Pay attention to and support young people's initiatives and commitment as an important part of societal development
